Honor. Support. Empower.

At Massachusetts Fallen Heroes we memorialize our fallen and we provide programs and services for our Veteran and Gold Star Family community. Help us honor the memories of the Massachusetts men and women who served since September 11, 2001 and gave their lives for our nation.

SHUCK OPEN A PATRIOT OYSTER

In 1776, as our Founding Fathers were building this country, they were also dining on oysters. That's right, turns out oysters are as American as, well, America. Even Martha Washington, our original First Lady, had a thing for such succulent bivalves. She incorporated them in many dishes to help keep her husband George hearty and full while he fought alongside his Patriots and defeated the British. Thomas Jefferson, the author of the Declaration of Independence, and John Adams, the revolutionary Massachusetts statesman, both enjoyed slurping down the ocean-made hors d'oeuvre.

But the American fervor for mollusks doesn't stop there. Not only were oysters loved by our most revered American Patriots, they were also a delicious meal enjoyed by all. Today they're a delicacy, but their fresh, crisp taste is the same as it was during the birth of our nation—and so is the clean New England coastline from which they're farmed. "As I ate the oysters...I lost the empty feeling and began to feel happy and to make plans," remarked American writer Ernest Hemingway. So when you're feeling patriotic and longing for a taste of history that's at once refreshing and pleasant, wholesome and savory, do the right thing and shuck open a Patriot Oyster. Farmed in Massachusetts, in the Cape Cod Bay—an oyster's throw from where the pilgrims began colonizing the Land of the Free—you can be sure that Patriot Oysters are American made and boldly delicious.
