

# CATCH THE WAVE!

Phade® marine biodegradable\* straws are coming your way.  
**Order yours now!**

## Be one of the first to offer these game-changing straws.

Phade® is the highly-anticipated solution that will change the way you and your customers think about straws. Made with PHA, a new material derived from canola oil, Phade® straws perform like traditional straws and are the ocean-friendly choice for operators and consumers who care.

Choose from four popular sizes, all made in the USA: 10.25", 8.5", 7.75" and stirrers.

MARINE BIODEGRADABLE*	SOIL BIODEGRADABLE	HOME & INDUSTRIAL COMPOSTABLE
