# CHOPHOUSE

## BETTER TASTING STEAK.

The Two Rivers Chophouse line of marble enriched beef is so good you have to taste it to believe it.

Our process accentuates natural marbling for notably tender and juicy beef, elevating the quality of the cuts without elevating the cost. We outscore higher cuts of meat in virtually every scenario.

HEAD TO HEAD  
WITH HIGHER  
GRADE CUTS

TWO  
RIVERS  
WINS.

We've partnered with the best beef producers in the world to supply our beef. It's all fresh, inspected, and produced using proven and validated food safety and humane handling systems.

We start with quality raw materials that simply don't meet the marbling requirements for USDA grade cuts and increase the flavor and juiciness by elevating the marbling. There's nothing tricky or magical about it. We've figured out how to upgrade it.

**WE MAKE STEAK BETTER.**

Our products are enhanced. We have put a lot of thought, time and creativity into developing our process using ONLY what naturally exists in the meat.

**INGREDIENTS:**  
**Water, Salt & Beef Fat**

**5 STAR STEAK**
