READY-TO-SERVE GRILL MARKED CHICKEN BREAST FILLETS

Offering choices as varied as your customers, Wayne Farms® provides a sous vide option to reflect the values and needs of different consumer segments. We start by marinating the fillets and vacuum sealing them in a pouch to enhance moisture retention, then we fully cook the fillets so you're left with an easy, ready-to-go product. Simply reheat the fillets and use as a center-of-plate protein for formal settings or in a sandwich application for fast casual dining. Crunched on time? Slice the fillet from a thawed state and add to any cold wrap or salad for a healthy, on-the-go meal option. No matter the operation or dish, there are no limits to this product.
