

Every day, we cook from scratch. We sear our **HORMEL® FIRE BRAISED™** Meats, engulfing them in flames. This creates a unique taste with overtones of caramelization — and a very distinctive appearance. Then we slow-cook these meats to tender, juicy perfection. It takes hours, but it consistently delivers outstanding flavor and texture. Which gives you a great starting point for your creations.

## **BE PREPARED.**

If you like the idea of having genuinely impressive meats ready now, there are many more in the collection to choose from. More protein types. More preparation methods. All ready-to-go and carefully crafted. Flame-seared. Slow-smoked. Globally inspired. So, lighten the load and be prepared, with proteins that give you the confidence to serve something that's exactly the way you would do it. [See them here.](#)
