

DATE: AUGUST 17, 2022

VOLUNTARY RECALL

Out of an abundance of caution, Piantedosi Baking Company, Inc. is voluntarily recalling the select products below that use Golden Gloss glaze. One of our distributors (J&K Ingredients) was notified by its supplier, a raw material manufacturer (Kerry Ingredients) that the Golden Gloss glaze has a potential for microbial contamination, including from the organism *Cronobacter sakazakii* and/or *Clostridium botulinum*.

We received the J&K Ingredients supplier recall notification on August 15, 2022 (J&K Ingredients Notification of Supplier Recall dated August 12, 2022 attached). As noted in the Supplier Recall notification, the raw material voluntary recall was initiated by Lyon Magnus in conjunction with the Food and Drug Administration. No illnesses have been reported in connection with the voluntary recall of these items.

Per J&K Ingredients Supplier Notification [please see J&K Ingredients Supplier Recall attached]:

- Kerry Ingredient's third-party manufacturer Lyons Magnus' root cause analysis indicates that the products did not meet commercial sterility specifications.
- Although *Clostridium botulinum* has not been found in products, we are conducting this voluntary recall and warning consumers not to consume any of the recalled products even if they do not look or smell spoiled.
- While infection related to *Cronobacter sakazakii* is rare, the common symptoms of illness could include fever, vomiting and urinary tract infection. However, vulnerable, and immunocompromised populations may be more susceptible to infection.
- To date, no illness related to these products have been reported, and the voluntary recall is being initiated out of an abundance of caution and in consideration of the wellbeing and safety of our customers and consumers.
- Both Kerry Ingredients and their third-party manufacturer, Lyons Magnus, have notified the Food and Drug Administration.

While no illnesses associated with Piantedosi Baking Company, Inc. bread products have been reported and no pathogens have been found in Piantedosi Baking Company, Inc. products to date, this voluntary recall is being conducted out of an abundance of caution to ensure customer safety. The affected lots of Golden Gloss glaze received were used for a limited production period between March 21, 2022 and April 25, 2022. See below for the list of the impacted Piantedosi Baking Company product UPC #s and lot codes.

Notification of Supplier Recall

August 12, 2022

PIANTEDOSI BAKING CO.

This letter is to notify you that on August 10, 2022 we received notification from our supplier, Kerry Ingredients, that they are recalling their manufactured Golden Gloss product. This recall was due to a potential microbial contamination reported by their supplier Lyons Magnus in Beloit WI. The specific product implications to your business is as follows:

Customer	Item Description	Ship Date	Lot Number	Quantity cs.	Quantity lbs.
Piantedosi Baking Co	Golden Gloss	3/7/2022	10211C4801	240	8174.4
Piantedosi Baking Co	Golden Gloss	3/21/2022	10201C4801	120	4087.2
Piantedosi Baking Co	Golden Gloss	3/29/2022	10211C4801	250	8515
Piantedosi Baking Co	Golden Gloss	3/29/2022	10201C4801	50	1703

At J&K Ingredients, it is our belief to service our customers in the best way possible. Although this recall is unfortunate and did not happen due to practices at J&K Ingredients, it is our responsibility to report this recall to customers who have purchased the product in question immediately. We do believe that if proper usage instructions were followed on this product, it would have provided an additional kill step and therefore making this safe for your customers. However, in taking proper precaution, you need to be notified of the following from our manufacturer.

Per the notification that we received:

- While infection related to *Cronobacter sakazakii* is rare, the common symptoms of illness could include fever, vomiting and urinary tract infection. However, vulnerable, and immunocompromised populations may be more susceptible to infection.
- *Clostridium botulinum* may cause a severe form of food poisoning. It can begin from six hours to two weeks after eating food that contains the toxin. Symptoms may include double vision, blurred vision, drooping eyelids, slurred speech, difficulty swallowing, and muscle weakness. Botulism poisoning can cause respiratory paralysis, resulting in death, unless assistance with breathing (mechanical ventilation) is provided.

- Although *Clostridium botulinum* has not been found in products, we are conducting this voluntary recall and warning consumers not to consume any of the recalled products even if they do not look or smell spoiled.
- Root cause analysis indicates that the products did not meet commercial sterility specifications.
- To date, no illness related to these products have been reported, and the recall is being initiated out of an abundance of caution and in consideration for the wellbeing and safety of our customers and consumers.
- Both Kerry Ingredients and their third-party manufacturer, Lyons Magnus, have notified the Food and Drug Administration.

We ask that you immediately examine your inventory and place any remaining product you may have on hold. Cease further distribution of the product. In addition, if you may have distributed this product, please identify your customers and notify them at once of this product recall. This recall should be carried out to the retail and consumer level as necessary.

Please complete the enclosed Recall Effectiveness Check Response Form and return it to Kristin Aiello at J&K Ingredients (kaiello@ikingredients.net) for review and processing with our manufacturer. You will then be provided further direction on next steps with the quarantined product.

At this time there is no immediate manufacturing of Golden Gloss to assist with loss of material. We will however be obtaining samples of a comparable material for your internal teams to evaluate and approve as a replacement to Golden Gloss. In our experience, this alternative product should act exactly the same as the Golden Gloss product in application and is already being used by major baking companies across the industry. Please advise who at your company should receive the sample case for testing and approval purposes.

Kind Regards,

Kristin Aiello

Kristin Aiello – J&K Ingredients Director, Procurement
