Can be thawed and stored refrigerated for up to 4 days.

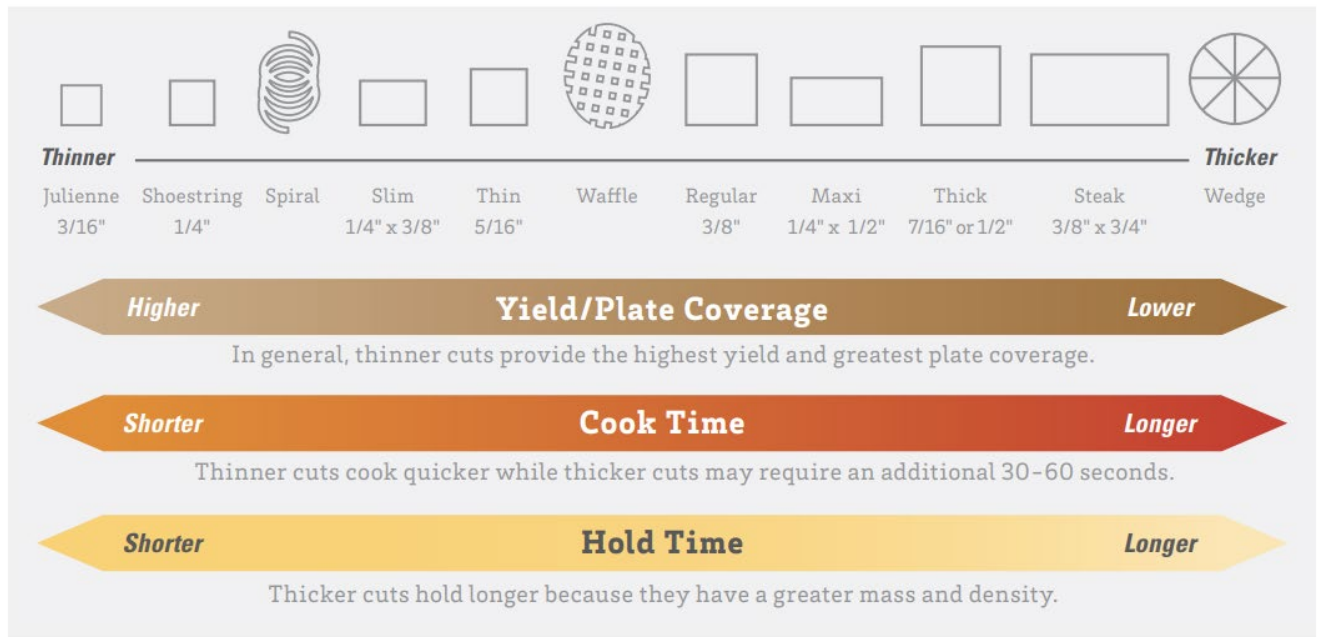

# POTATOES ARE SIMPLE.

## Choosing the Right One Should Be Too.

Finding potato products that satisfy your guests can be challenging. With our simplified lineup, it's easier than ever to select the cuts, coatings and length that make your menu shine.

### CUT

Your fry cut says a lot about your business. Not only does cut type impact performance, choosing the right cut can help you bring guest satisfaction to a new level.

### COATING

Batters and coatings add varying levels of flavor to help differentiate your menu. They also extend hold times to keep your fries tasting better, longer. McCain® has the right fries to meet your back-of-house needs and exceed front-of-house expectations.

### LENGTH

Cut and length are the two key attributes that influence yield—the longer the fry, the higher the yield. McCain **Premium Extra Long (PXL)** and **Extra Long (XL)** fries are longer and more uniform than line-flow fries, which increases your servings per case.
