## Slicing Tips

**For fruit pies**, cut at room temperature using a non-serrated knife. Start at the center & cut outwards through both the top & bottom crusts, then trim along the crimped edge & finish by cutting through the heel.

**For cream pies**, cut while frozen. Dip your knife in hot water, wipe dry & cut starting at the center. Repeat.

**For even slices**, simply flip over a pie server & use as a guide.
